

In-Villa Dining Menu

TIA Nourish Philosophy

Our philosophy is simply based on eating real, natural food to keep as much original nutrients during cooking as possible so that your meal nourishes you and positively impacts your energy and your mood.

The TIA signature Eat Light, Feel Bright scaling system is a simple tool used to educate you on how food impacts the energy and mood. All meals with 5 points or below are considered to be light and we give our guests the choice to balance according to each individual's current state of well-being.

Benefits to Eating Light

Gives the body a break: Eating light nutritious foods provides a break from heavy, unhealthy foods to experience a new level of physical and mental energy, and healing. When heavy food is consumed, extra blood is required for digestion and the body diverts all attention to this process.

Allow the body to focus on healing: Eliminating toxic foods and simplifying the diet allows the digestive system to rest. Our body can then focus on healing and repairing. Health and mood benefits: Guests will be inspired to continue feeling good in the long-term, have a more positive outlook, improved mood, decreased inflammation, weight loss and a better complexion. All dishes are labeled for your convenience with the below symbols according to the ingredients:
