THE WINE LIST

Wine & Wellness

At TIA Wellness Resort, caring for our physical and mental wellbeing is at the heart of everything we do. We believe wellness is not just about discipline but also about joy, connection, and conscious choices. Sharing a nourishing meal and a glass of wine with loved ones is part of a happy balanced life.

Wine has been enjoyed for thousands of years - not only for its taste but also for its potential benefits when consumed in moderation. At TIA, we embrace this mindful approach with a wine list that supports both enjoyment and wellbeing.

Natural Wine

In addition to our main selection, we offer a small collection of natural wines - produced from organically or biodynamically grown grapes, with minimal intervention in the cellar. These wines are made without additives, heavy filtration, or processing aids and added sulfites are avoided or kept to a minimum.

The result is a “living” wine: vibrant, expressive and full of natural microbiology. Some guests find natural wines gentler on the body due to their purity, though health benefits are still being explored. Above all, they offer a more raw and authentic expression of the grape and the land.

Organic & Biodynamic Wines

We are proud to present Vietnam’s first and only fully organic and biodynamic wine list. Every bottle has been carefully selected to reflect our commitment to clean production methods, sustainability and wellness.

ORGANIC

Organic wines are made from grapes grown without synthetic pesticides, herbicides, fungicides, or chemical fertilizers. The entire winemaking process adheres to certified organic standards.

BIODYNAMIC

Biodynamic wines build on organic principles, treating the vineyard as a living, self-sustaining ecosystem. Farming is guided by lunar cycles and natural rhythms, enhancing soil health and bringing depth and vitality to the wine.

Please note: Some producers farm organically or biodynamically without formal certification. Organic and biodynamic wines may still contain small amounts of sulfites used for preservation.
